

QUANTITATIVE EQUITY ANALYST

MDT Advisers is seeking a few very talented individuals to join its core investment management team. This team is responsible for managing a unique family of quantitative equity strategies with a long history of success.

Qualifications:

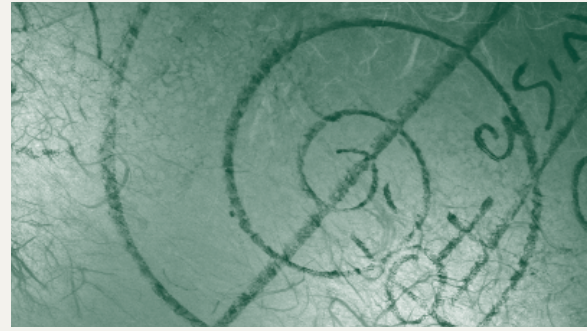

- A recent bachelor's degree from a top school with an outstanding record of academic achievement.
- Solid background in several quantitative disciplines such as finance, economics, mathematics, statistics, computer science, and operations research.
- Strong programming skills. Experience solving complex problems in the C language a plus.
- Exceptional self-motivation, creativity, and attention to detail.
- Excellent oral and written communication skills.

The individuals we select will each have the opportunity to contribute to all aspects of the process including investment research, software development, and portfolio management. The precise mix and nature of an individual's assignments will vary over time and will depend on his or her skills and interests, as well as team goals.

Example Projects:

- Developing innovative software tools to create and implement successful investment strategies.
- Analyzing large and complex financial data sets to discover economically sound investment variables that improve the performance of our strategies.
- Building detailed trading cost models to estimate the profitability of potential trades.
- Designing and running sophisticated simulations to create investment strategies that outperform their benchmarks on a consistent basis.
- Analyzing financial, economic, and corporate news to ensure that our investment strategies are implemented with accurate and current data.

We offer an extremely competitive compensation package and an intellectually stimulating work environment. This is an outstanding opportunity for individuals with a willingness to work hard and a genuine desire to excel in the investment management business.

About MDT Advisers

MDT Advisers is a quantitative investment management firm providing separately managed accounts and mutual funds to individual investors and institutions. Our initial investment strategy, All Cap Core, was first offered in 1991. Today, we offer eight different strategies and have over \$6 billion under management.

We are located in Cambridge, Massachusetts, convenient to downtown Boston. If you have any questions or would like additional information, please visit our website (www.mdtadvisers.com) or contact Kelly Patel (careers@mdtadvisers.com).
